

## REMARKS

In the Office Action mailed July 13, 2005, claims 1-18 are allowed, "objected to" claims 20 and 23-37 contain allowable subject matter; and claims 19, 21 and 22 were rejected under § 102(e) as being anticipated by Siegers et al. (U.S. Patent Application No. 2004/0215410 A1). The foregoing objections and rejections are respectfully traversed.

In accordance with the foregoing, claim 20 has been cancelled without prejudice or disclaimer and the limitations thereof have been incorporated into independent claim 19. Further, claim 32 has been amended to depend from claim 19. Therefore, claims 1-19 and 21-37 are now in condition for allowance.

A copy of the "ISO 9283" International Standard for Manipulating industrial Robots is filed herewith in an Information Disclosure Statement, in response to the Examiner comments at page 2 of the Office Action.

Withdrawal of the objections and rejections is respectfully requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
